Senators

Contact them about Bill C-15.
Bill C-15 is currently at Third Reading with the Senate. While it is a large bill, with many different aspects, included in it are proposed significant changes to the federal Expropriation Act, primarily to expedite land acquisition for the proposed high-speed rail network. Key changes include eliminating the requirement for the government to first attempt to purchase land before expropriation and removing public hearings. Reach out as many senators as possible to share your concerns about changes to the Expropriation Act.
